

BUSINESS VALUATION

KNOWING WHAT YOUR BUSINESS IS WORTH

Transitioning a business is an art and a science and having an accurate valuation is a necessary first step. As a business owner you need a business advisor that can provide credible, reliable advice and protect your financial interests in any transaction. Our team has the experience and knowledge to ensure you are making business transactions based on accurate and meaningful numbers.

An accurate valuation can help you with:

- The purchase or sale of a business
- Shareholder planning
- Corporate reorganizations
- Litigation support
- Estate planning
- Succession planning

HIGHLY SPECIALIZED WORK

Our business valuation team is highly experienced and ready to help determine the value of your business and assist with related engagements. Our formal valuation reports are in accordance with relevant standard and are based on years of experience in a variety of industries.

Our team has knowledgeable lead advisors that know the ins and outs of acquisition or divestiture and all related due diligence. We can help when a transaction (of shares or assets) is taking place, there is a dispute (between shareholders or spouses), government authorities require a value (for tax or expropriation) or there has been a loss (due to nature, fraud or theft). In times of opportunity or crisis the team from Dawgen Global will be there to ensure that your best interests are being looked after.

OUR BUSINESS VALUATION SERVICES INCLUDE

- Formal valuation reports
- Informal pricing exercises and analysis of industry trends
- Preparation of financial projections and business plans to assist companies with securing financing
- Due diligence for acquisitions
- Income reports in accordance with Guidelines to assist with family law proceedings
- Loss quantification reports
